

INKA MOSS / INKA SHOP

3 kg – Professional Growers Edition

Product Overview

Premium sphagnum moss responsibly harvested from high-Andean wetlands in Peru. Selected for clean processing, naturally soft fiber and balanced moisture retention.

Key Technical Data

Net weight: 3 kg (6.6 lb)

Approximate expansion: ~236 L

Scientific name: *Sphagnum magellanicum*

Average pH: ~5.5

Moisture content: ~16–17%

Impurities: <2%

Absorption capacity: up to 20× dry weight

Fiber Characteristics

Naturally soft and resilient fiber that expands into a spongy structure when hydrated.

Typical Applications

Professional orchid cultivation

Nurseries

Propagation benches

Large scale terrariums

Preparation

Hydrate the moss in clean water until fully expanded. Gently squeeze excess water before use.

Storage

Store in a cool, dry and ventilated place.

Origin

Produced by Inka Moss – Peru | U.S. Brand: Inka Shop LLC
