

INKA MOSS / INKA SHOP

500 g – Advanced Hobby Edition

Product Overview

Premium sphagnum moss responsibly harvested from high-Andean wetlands in Peru. Selected for clean processing, naturally soft fiber and balanced moisture retention.

Key Technical Data

Net weight: 500 g (1.1 lb)

Approximate expansion: ~38 L

Scientific name: *Sphagnum magellanicum*

Average pH: ~5.5

Moisture content: ~16–17%

Impurities: <2%

Absorption capacity: up to 20× dry weight

Fiber Characteristics

Naturally soft and resilient fiber that expands into a spongy structure when hydrated.

Typical Applications

Repotting plants

Plant collectors

Aroids & tropical plants

Medium terrariums

Preparation

Hydrate the moss in clean water until fully expanded. Gently squeeze excess water before use.

Storage

Store in a cool, dry and ventilated place.

Origin

Produced by Inka Moss – Peru | U.S. Brand: Inka Shop
